Hiring Team,
Societe Generele
Bengaluru,Karnataka

Dear Hiring Manager,

I am writing to express my interest in the **Software Engineer-YG** position at **Societe Generele** , as advertised. With a Bachelor's degree in Information Science & Engineering from New Horizon College of Engineering and various certifications in data management, cloud computing, and artificial intelligence, I am eager to contribute my knowledge and skills to your team.

Throughout my academic career, I have developed a strong foundation in database management systems, software development, and data analysis. I have completed several mini projects, including a **Hospital Management System**, **Traffic Rule Violation Control**, **COPD detection**, and **Plant Disease Detection** using a variety of technologies such as Python, C, and deep learning algorithms. Additionally, my internship experience at Genpact India helped me gain valuable insights into the support functions of Shutterfly Fulfilment Platform (SFP), further enhancing my understanding of real-world IT processes.

I am particularly drawn to Societe Generele because of its commitment to innovation and excellence in Technology . I am confident that my hands-on experience with technologies like MySQL, AWS, and machine learning, combined with my eagerness to learn and adapt, will allow me to make meaningful contributions to your organization.

I look forward to the opportunity to discuss how my background, skills, and certifications align with the needs of your company. Thank you for considering my application, and I hope to contribute to the continued success of the organisation.

Sincerely,
Vyshnavi K
